

FABRICATION

OUR IN-HOUSE CAPABILITIES INCLUDE:

- HyDefinition Plasma Cutter
- Custom 2D and 3D Design
- In-House Engineering
- Large Manufacturing Space (2,000 sq. ft)
- AWS D1.1 Certified Welders
- Final Paint Completed In-House or On-Site
- Fully Equipped Fabrication Rigs
- Experiences with Carbon Steel, Stainless Steel and Aluminum

Our **in-house fabrication shop** allows us to plan, design and create just about anything.

Does your machine need a part that's out-of-stock or no longer made? Do you have custom fabrication requirements for a piece of equipment or a component? Lee can help!

Our in-house fabrication shop allows us to plan, design and create just about anything. Our team, equipment, machines, tools and resources allow us to remain flexible enough to create solution that are on-time and on-budget. Lee 's structural engineers will stamp and certify all structures and designs, and we can also arrange to have the new part installed. That's the benefit of working with a turn-key partner.

Lee can produce everything from stairs and mezzanines to pump skids and structural steel layouts.

Let Lee design and build your next project. Give us a call or visit our website to learn more.
